

Understanding the New K-5 Report Cards

November 1, 2021

The California Standards

- Set high expectations for every student
- Describe what students should know and be able to do at the end of the year
- Related to the Oxnard School District Student Profile
 - Mastery of core knowledge and standards
 - Critical thinking skills

What is on the new report card?

- Progress towards mastery of skills and standards
 - Helps teachers as they design lessons to meet the needs of students
 - Helps parents know how they can best support their child
 - You will NOT see “traditional” grades, like A, B, C, D, and F
- 

What will you see?

Proficiency-Level Indicators for Content Standards

- ▶ **4 Exceeds end-of-year standard:** Student applies standard in ways that are in-depth and beyond what was taught.
- ▶ **3 Meets end-of-year standard:** Student consistently demonstrates mastery of standards.
- ▶ **2 Approaching end-of-year standard:** Student shows some understanding of the standard and is attempting to consistently meet the standard.
- ▶ **1 Not yet approaching end-of-year standard:** Student needs more practice in understanding the standard

Important Things to Remember

- Students in the DLI program will have marks for Spanish Language Arts and English Language Arts
- English learners will receive marks for their proficiency in the ELD standards
- All students will also have marks in math, science, social science, PE, visual and performing arts, college and career readiness, and social emotional development
- The standard represents what the student should be able to do at the END of the year. Remember: a 3 means they have met the standard

How can parents help?

- Read to your child, and have them read to you
 - Have them assist with age-appropriate math tasks (counting change, estimating tax, finding a total, etc.)
 - Review their courses in Canvas, and have them show you their homework
 - Contact their teacher if you have questions or concerns
 - Participate in parent conferences in mid-November
-
