

ART TREK

Geometric Jester/Animal

Materials:

4 sheets construction paper
(2 full and 2 half sheets)

OR plain copy paper

Crayons

Scissors (optional)

Glue stick (optional)

Directions:

1. Using the geometric shapes below for ideas, create your own geometric person or animal with a dark crayon.
2. Add some designs to your person or animal with the dark crayon and then fill in the image with crayon.
3. Consider having the jester interact with an animal or another jester.

Optional: If you create your picture on a large sheet of construction paper, consider cutting it out and gluing it onto the other sheet. Then use scraps from the cutout to decorate around the image. Use the half sheets of construction paper to make a fun animal.

Vocabulary: jester (silly, happy clown-like person), geometric shapes, design
