

Take an ELPAC Practice Test with your student!

The Summative English Language Proficiency Assessments for California (ELPAC) is the assessment that is used to measure how well students in kindergarten through twelfth grade understand English when it is not their primary language.

The ELPAC tests four different areas:

Listening

Speaking

Reading

Writing

The Practice Tests include sample test questions and directions and can be found at <https://www.elpac.org/resources/practicetests/>.

More information about the ELPAC can be found on the California Department of Education ELPAC Web page at <http://www.cde.ca.gov/ta/tg/ep/>.

Students and families can use the Practice Tests to:

- Become familiar with the types of questions on the ELPAC
- Understand the types of English language skills that students are expected to develop
- Understand what students need to be able to do on the actual test
