

Dear Families,

This year your student will have the opportunity to use Lexia® PowerUp Literacy® is a computer-based program that tailors instruction to their specific needs. The activities in PowerUp support and build on the English language arts classroom curriculum, developing skills in three areas essential to becoming a proficient reader: Word Study, Grammar, and Comprehension

### Here's how Lexia PowerUp Literacy works:

- Your child begins PowerUp at a starting point that fits his or her academic needs and they will work in online activities throughout the week. **Limit sessions to 30 minutes.**
- Students can work on the online program independently up to 30 minutes a day. With the goal to meet their personalized usage goals each week. These goals range from 75-145 minutes a week.
- Online activities include direct instruction and feedback as your child learns and practices new skills.
- Extension activities are also used for practicing and extending skills and may be shared in the future
- Progress and performance in the program are reported to teachers.

### Getting started is easy!

If you have a question about your child's username or password, please contact your child's teacher directly. Customer Support is not able to provide families with teacher emails, student usernames, or passwords.

#### Login with Clever

1. Launch the Clever app.
2. If you do not have a clever badge, log-in with Oxnard SD username (next to the Clever Logo)  
\*First time they sign in, students will need to search for the school
3. Students will be logged into the class portal (Students will see icons for ST Math and Lexia)
4. Select Lexia

#### Student Experience

1. The very first time your child logs in to **PowerUp** they will take a placement test. This test can be completed in multiple sessions and can take upto 75 minutes to complete. It will likely take place during a few of your first synchronous virtual class meetings but **do not provide any support.**
2. It is important that your child works **without any help while using PowerUp**. All of the work your child does at home is recorded and reported to the school.

We hope you share our excitement about this program.
