### Club Fair

By Joshua Montes, Erick Garcia, Jesus Lupian, and Kayla Young

This year's club fair was packed! If you've always wanted to join a club, but don't know what the club is about or at what time they meet up, here are 6 of the many clubs available here at Fremont:

1. The newest club of the year is the **Potterheads**. Potter heads is a book club about the book series Harry Potter they meet up on Fridays after school in Ms. Todd's room 403.
2. **Drama Club** meets in Ms. Moore's room 806. is a place where people who are interested in theatre can meet. There are many different branches, such as makeup, costume design, set design, and acting.
3. **Art Club** has been here for a while and is a place where you can out with other artist friends. They meet on Wednesdays in Ms Sweet's room 705.
4. **LOVE GSA**, or Let Our Voices be Equal, is the gay-straight alliance club that creates a safe environment for LGBTQ students. They meet up on Thursdays after school in Ms. Ortiz's room 703.
5. **MESA Club** has been here for years and is for those that love math and engineering. If you like making popsicle stick bridges and balsa wood gliders, this might be the place for you. They meet up on Wednesdays after school in Mr. White's room 801.
6. **Mathquest** is for those math lovers out there. They study for math competitions and they meet up on Mondays after school in Ms. Vedernikova's room 902.

### Mr. Milton

By Jacqueline Ullrich, Julisa Abonce Nieto, and Faith Luna

Mr. Milton is a wonderful teacher. He has been a teacher for 23 years, 22 of them here at Fremont. He teaches 7th grade and is a wrestling coach. He also helps run Mathquest and MESA with other wonderful teachers. Before Mr. Milton was a teacher he was a school bus driver. His favorite thing about being a teacher at Fremont is that he enjoys having fun with junior high kids.

You might hear him say phrases like "When in doubt", and then the students say "Factor out". Another thing you would hear him say is "Exponents affect..." and students reply with "...what they touch", A couple more phrases he can be remembered for are "Absolute value..." and the students reply with, "...distance from zero", "wax on wax off", and "Paint...the fence". All these quotes are helpful for what we are learning in class.

Another interesting fact about him is that he knows the Falcon Spirit Song by heart and teaches it to all of his students. One thing all his students learn from his class is how to do sudoku and once you leave his class, you will become an expert at it.

### Fremont Calendar of Events

By John Chavolla, Andrew Huynh, and Ashton Legaspi

- Sept. 28 D/F Notices deadline
- Oct. 3rd The Great American Assembly Fundraiser begins
- Oct. 19 Great California Shakeout Drill (the entire state does an earthquake drill at the same time!)

## My Thoughts on Nike Controversy

By Joshua Montes

So you probably know about the new Nike ad and the controversy behind. Now in my opinion, I really don't care that Kaepernick knelt during the pledge of allegiance. Now I do think that that was disrespectful, but seriously? You're all getting mad at Nike for putting Kaepernick in their 30th year anniversary ad. It's been 2 years since Kaepernick did that! I

think we are handling this like big babies. I care more about CNN fixing their gosh darn videos because they stay muted.

You know what? I don't care anymore. If you wanna burn your shoes that you wasted money on. Then go ahead, be my guest. As long as it doesn't affect me, I'm fine with you doing that.

## DOES GLOBAL WARMING EXIST?

By Angelica Gonzales

Global warming is the drastic increase in global and ocean temperature. Global warming starts when there is an excessive release of CO<sub>2</sub> (carbon dioxide). This dramatic increase of CO<sub>2</sub> damages our ozone layer by breaking it down. Our ozone layer protects us from harmful ultraviolet sun rays that our sun gives off. A really big issue we currently have is that our ice caps are melting. This is a real problem because some of our biggest cities may not even be here if the process of the melting ice caps continues. As the ice caps melt, the ocean becomes larger and it can completely cover over our coastal cities. This rapid increase of water WILL cause flooding.

After this statement was released other people have said that "killing all babies will end global warming"? Which the opposing side says is completely unethical. Instead of killing babies (completely ignorant statement) we can make cars more environment friendly. And can maybe substitute the use of cars for bikes for short distance rides.

To conclude both sides, global warming definitely exists and ignoring the fact will do nothing but continue to hurt our planet. And such drastic actions WILL be necessary.

## Is Pluto a Planet?

By Felicity Resendiz, HeavenLee Reyna,  
Emma Wood, and Brendon Estes

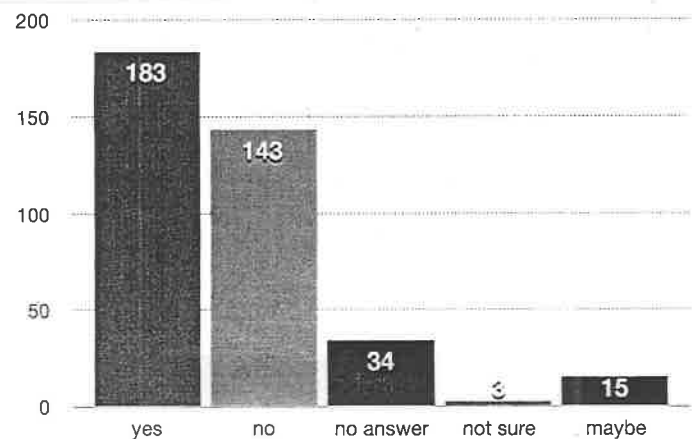

Did you know that Pluto is not classified as a planet? It is classified as a dwarf planet in the Kuiper belt, which lie in a ring of bodies beyond Neptune. However since the 1930s, more than 75 years after it

was originally discovered, Pluto was named our ninth planet. Then in 2006, the International Astronomical Union (IAU) reclassified Pluto as what we know today as a dwarf planet.

Experts still continue to say Pluto should be a planet. They claim the reason Pluto lost its planet status is not a valid reason. The only difference between a planet and a dwarf planet is the area surrounding each celestial body. A dwarf planet has not cleared the area around its orbit while a planet has. Since the new definition, there are three new dwarf planets-- Pluto, Ceres, and Eris. But some people think Pluto should still be considered a planet because it happens to orbit the sun. The current definition of a planet is that it should orbit the sun. So why is Pluto not a planet?

Others claim that Pluto should not be a planet because back in the 1960's there was a "planet" found named Juno. Then after Juno was found, two more "planets" were found, but after that many more so-called "planets" were found. Juno, however, remains in the asteroid belt, and cannot therefore be a planet. Pluto lies in the Kuiper Belt, and that's why, according to Brendon Estes, it is and will never be a real planet.

## North and South Korea Summit

By Carlos Gomez, Orion Gross,  
Donovan Aguilar, and Joshua Alcantar

South Korean president Moon Jae In and North Korean dictator Kim Jong Un just had their third summit meeting. They first met at "Truce Village" back in April, and just made an appearance at Pyongyang. Kim Jong Un has

been the first North Korean leader that has entered South Korea since The Korean War back in the 1950's. The Korean leaders have signed for a permanent peace

treaty. Kim and Moon hailed a "New era of peace," and Kim finally agreed to denuclearization. This is a big step for easing the tension between Washington and Pyongyang.

Despite North Korea denuclearizing its plants and reducing its nuclear arsenal, the US has some suspicion. Washington believes that North Korea is still making progress in making nuclear weapons, and not making any efforts to dismantling them.

## "The Nun" Review: Is It Scary?

By Victor Godoy

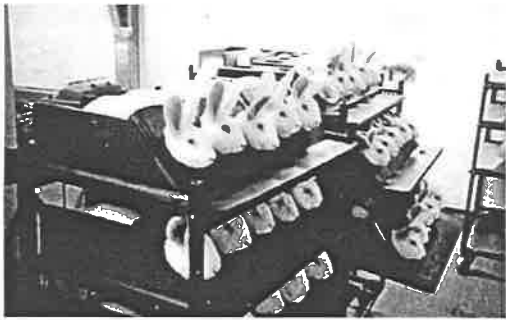

**Spoiler Alert!** The Nun is the latest and final movie in The Conjuring franchise. So the question had to be asked: Is it scary? Well, in short The Nun really isn't that scary. Besides jumpscare, it's really not that scary. Most of the jumpscare are the same--  
1. Person sees something in the hallway.  
2. The camera pans to the hallway.  
3. Goes back to character in the hallway.  
4. BOO!

The plot is pretty interesting. It starts with a nun committing suicide so she will not get possessed by a demon. The day after a young man finds the body and tells the nearby authorities who then give the word to the vatican. The vatican then acquires the help of a young girl who is a nun that hasn't gotten her vows yet and an old priest. They they go to see if the church where the nun died was still holy. The cinematography is pretty good. In all honesty, I don't like it, but you could go see it. It's still worth checking out, so you could gather your own opinions on the film.

## Scientists Kill Animals with Your Products!

By Ayumi Anderson

Have you ever wondered how chemicals you use on your skin are safe for you? They have to test it on someone. Animals! Animals such as dogs, rabbits, and other small animals are common test subjects when it comes to skincare products that have chemicals in them. I strongly believe that companies should not test their products on animals, and should go into creating all natural products without chemicals so there is no need for testing.

Sometimes, the tests on animals go wrong leaving the poor subject with skin irritations, loss of fur, and other medical problems. People that agree with testing on animals believe animals are useless anyway, and are looking for a cheap way to test their products and make lots of money. However, animals shouldn't be used just to get money. I believe it is morally wrong to injure animals for money, or products that people pay top dollar for. In conclusion, testing products on animals shouldn't be allowed, and will soon lead to a depletion of animals for them to "test".

## "Don't Hug Me. I'm Scared" Returns!

By Faith Luna

"Don't Hug Me. I'm Scared," found on Youtube, is a live-action/animated horror comedy web series created by British filmmakers Becky Sloan and Joseph Pelling. It consists of six episodes. The first episode released on July 29, 2011, to June 16, 2016 through the artists' website, YouTube, and Vimeo. Just when we all thought it was over, the popular internet series, "Don't Hug Me. I'm Scared" has returned!

These dark nursery rhymes only come once a year, and they were thought to end in 2016. The official channel came back with a 30 second teaser called "Wakey Wakey". In the previous episode of DHMIS, it came to an official end. So how will it continue? Rumor has it the series will air on television with higher production quality. A spokeswoman for Turner Broadcasting's Super Deluxe Entertainment Company says that DHMIS is being turned into a television show, but no release date or network is available.

## Apple

By Sandra Y. Gastelum

iPhone XS iPhone XS MAX iPhone XR

Apple is making a new phone X Max, XR, and XS. Apple phone XR with 64 GB sells for \$749 or with 128 GB for \$799. iPhone XS with 64GB at \$999. iPhone XS MAX with 64GB starting at \$1,099.

Apple also has a new watch series which costs \$399-\$799. Apple iPhone XR has more colors than any iPhone before. iPhone Series 4 has 18 new colors and metal to choose from. Apple XR release date is October 26th. iPhone XS is already available.

## Series of Unfortunate Events Review

By Andrea Muñoz

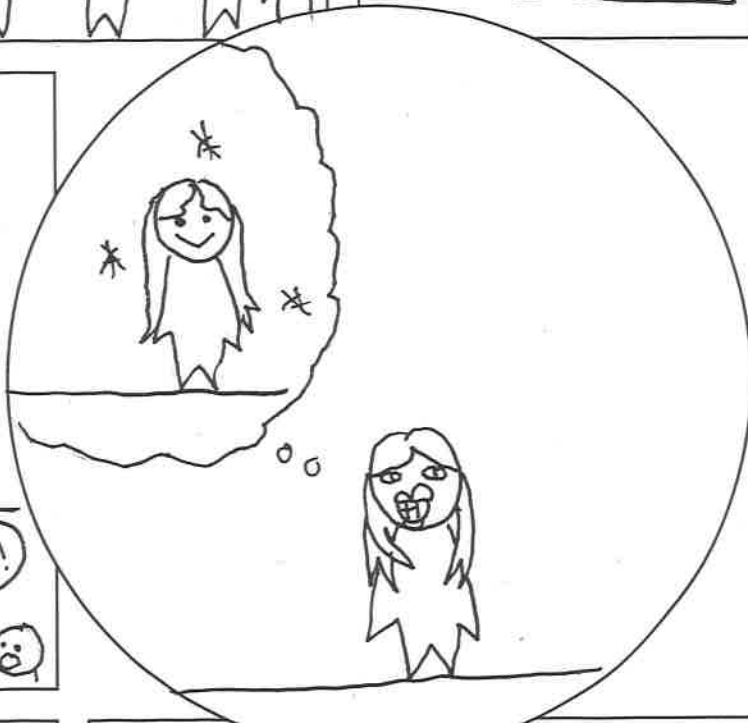

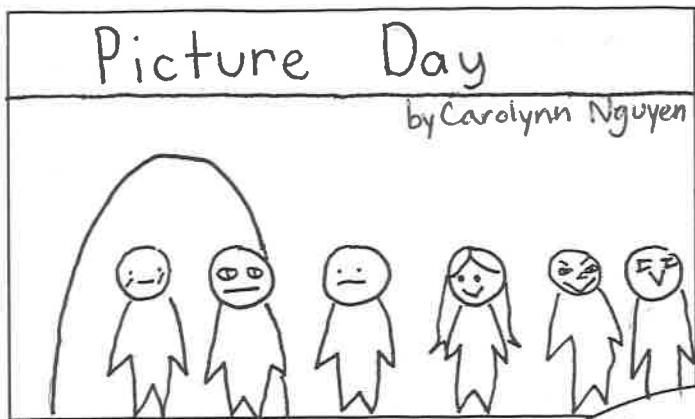

**Spoiler Alert!** A Series of Unfortunate Events is an amazing collection of books. I have read all the books and they had me hooked word for word. All 13 books were filled with evil villains and mysteries. Count Olaf is the mischievous great, great, great uncle, 4 times removed. Violet, Klaus, and Sunny are the three Baudelaire children. Count Olaf has countless attempts to get the fortune of the Baudelaire children. He has many assistants that would lock up, torture, and capture them. The series has a total of 13 books. All of them have a cliffhanger leading to the next book. Along the way, the Baudelaire children have many caretakers and babysitters that were very cruel to them.

In every book, the Baudelaire children are searching for VFD. VFD is a secret society that they figure out later in the series. VFD stands for Voluntary Fire Department. Many of their friends end up leaving them in the end. They also make friends like the Quagmire triplets. Esme Squalor and Carmelita Spats are friends of Count Olaf and they want to get the sugar bowl. The sugar bowl is a prized possession VFD. In the series the author never tells the reader what was inside but it must be important because it was stolen from them long ago. In the entire series there is 13 books with 13 chapters each. In total, if you read the entire series, you would read 169 chapters or almost 3500 pages! If you love the series as much as me you would know that there is a secret story at the end of the last book about the darkness. The ending was so engaging I almost cried. In my opinion I think there should be another book just so the series would have more of an ending. This is just small taste of the incredible books of Lemony Snicket, read the series and you will be begging for more! Now there is a Netflix show dedicated to the books if you are done with the series.

Characters, Duck (second left), Red Guy (back), and Yellow Guy (second right)

**HOROSCOPES**

By: Angelica Gonzales

ARIES - If you are unsatisfied with the amount of earnings you may be getting you must work harder to get extra credit and such! Rise above in your classes and look forward for graduations 8th graders! (March 21 - April 19th)

TAURUS - I know you can be a victim of procrastination, and even though you may still get it done. There will be a time in life when you will have so much work that you don't even have any time to spare to even get lazy. (April 20th - May 20th)

GEMINI - You could find out a lot of things about someone just by observing their body language. You can tell how they may feel towards you. Or how they may feel about other subjects regarding school. (May 21st - June 20th)

CANCER - If someone is in a horribly toxic mood it's best to leave them alone for a bit it is possible they could project their negativity onto you, and from then on all it will do is continue to spread. (June 21st - July 22nd)

LEO - Be sure to take care of yourself. There are people looking forward to just talking to you. And besides how can you help anyone if you can't even take care of yourself. Boost yourself up and get on out there. (July 23rd - Aug. 22nd)

VIRGO - If you're all worked up on homework just remember it will only seem hard until you have finally completed it. It's fine to blow off some steam sometimes but just be ready for Monday's work! (Aug. 23rd - Sept. 22nd)

LIBRA - You should balance out your emotions with analytical thoughts, it'll help you in the future. Make sure not to choose to do something instead of another. Make logical choices and push forward. (Sept. 23rd - Oct. 22)

SCORPIO - I know you like being collaborative, and sometimes you really aren't going to be in a group. To be a successful student you should learn how to work with others of course. But to be even more successful you must know what it is like to depend on yourself. (Oct. 23rd - Nov 21st)

SAGITTARIUS - You feel very energized and ready to do some work, you are probably finally getting used to the gist of school. You can talk to your friends, AND also do your work you know!! (wouldn't recommend at the same time) (Nov. 22 - Dec. 21)

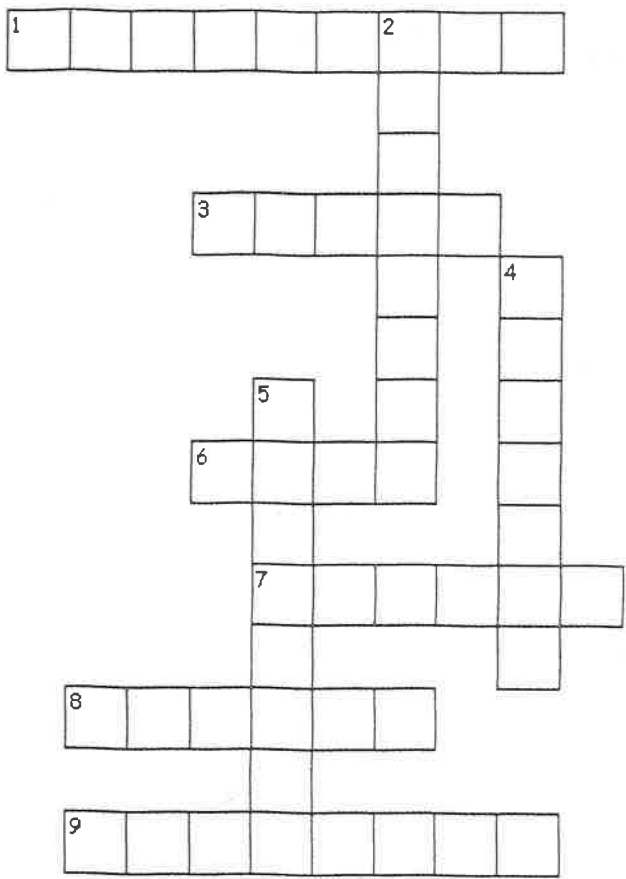

CAPRICORN - Prepare yourself for upcoming tests, because some will come. And studying may or may not be crucial. Sounds repeated, but pay attention and turn in everything!! Anything is better than absolutely nothing. (Dec. 22nd - Jan. 19)

AQUARIUS - School weeks only fly by. And it looks like you've been doing well on completing your assignments. Try to keep this mindset and position! It's easy to get up there but it's even easier to come down from there. (Jan. 20 - Feb. 18)

PISCES - I know you don't have that much homework to do but that doesn't mean go play video games all day. I'm sure you can get ahead on things, perfect things, or get some extra credit to do! (Feb. 19th - Mar. 20th)

**Top 10 Musical Soundtracks**

**You Need To Listen To**

By: Maiah Callanan

1. Hamilton: An American Musical
2. Wicked
3. Bonnie and Clyde
4. Dear Evan Hansen
5. Newsies
6. Grease
7. Be More Chill
8. The Greatest Showman
9. Les Miserables
10. The Phantom of the Opera

**Don't Give Up**

I like to do art  
 With pencils and pens  
 I can do art  
 Again and again

Oh my gosh  
 I cant do art  
 I feel like  
 I am falling apart

I can't draw this  
 One simple thing  
 I can't do  
 Anything

It is okay  
 To fail sometimes  
 Just don't give up  
 It'll take some time

You can do anything  
 Like believing you can fly  
 You just need to  
 Try, try and try

- Across
1. Do you need to sharpen your pencil?
  3. What you use to draw a straight line with
  6. You can read this at home or school
  7. What you use to get rid of mistakes
  8. A place where you go to learn
  9. Somewhere where you keep your supplies
- Down
2. What you use to draw or write with
  4. They help you learn new things
  5. Something that you work on at home
