How do I get to this page?

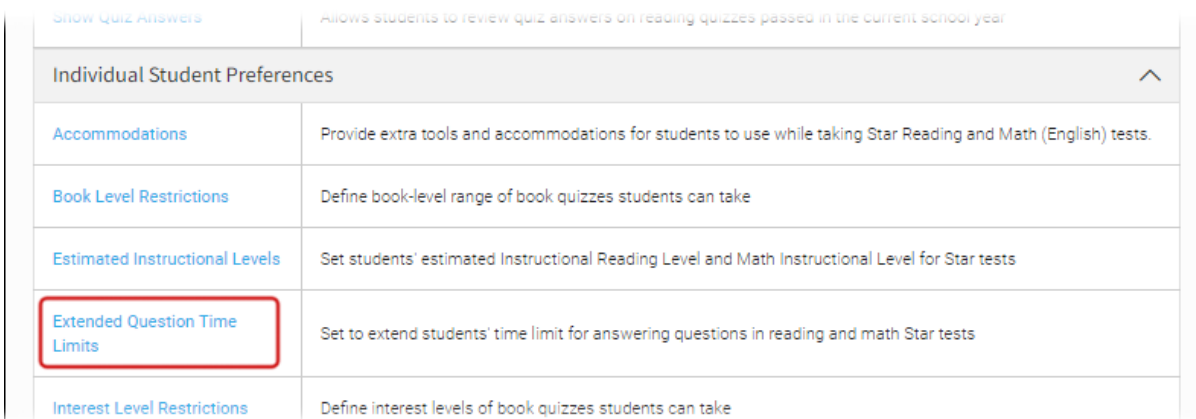

There are two ways to get to this preference—use whichever method you prefer.

Method 1:

1. Log in to Renaissance.
2. On the Home page, select your name in the upper-right corner. In the drop-down list, select **Edit Preferences**.

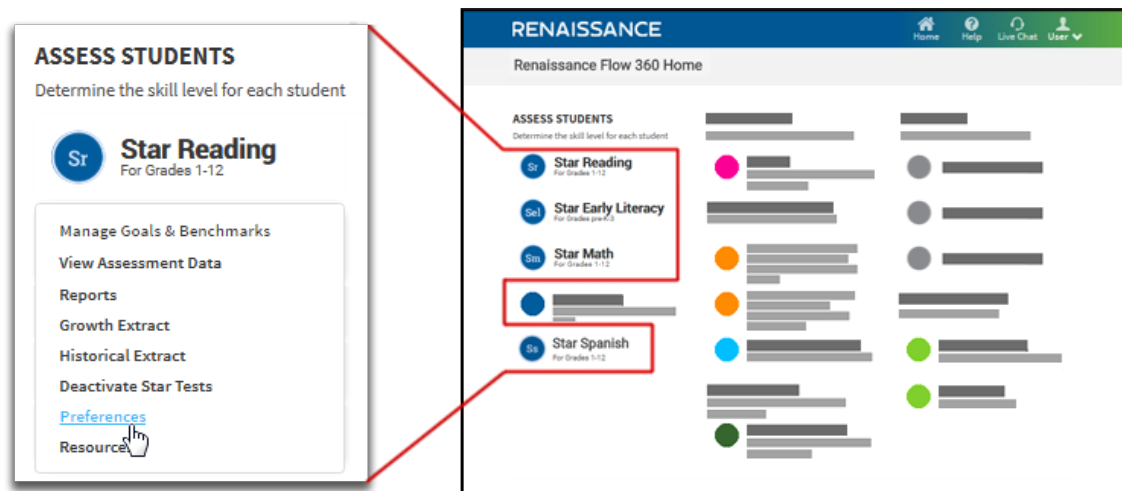

3. On the Preferences page, select **Extended Question Time Limits** in the Individual Student Preferences section of the page.

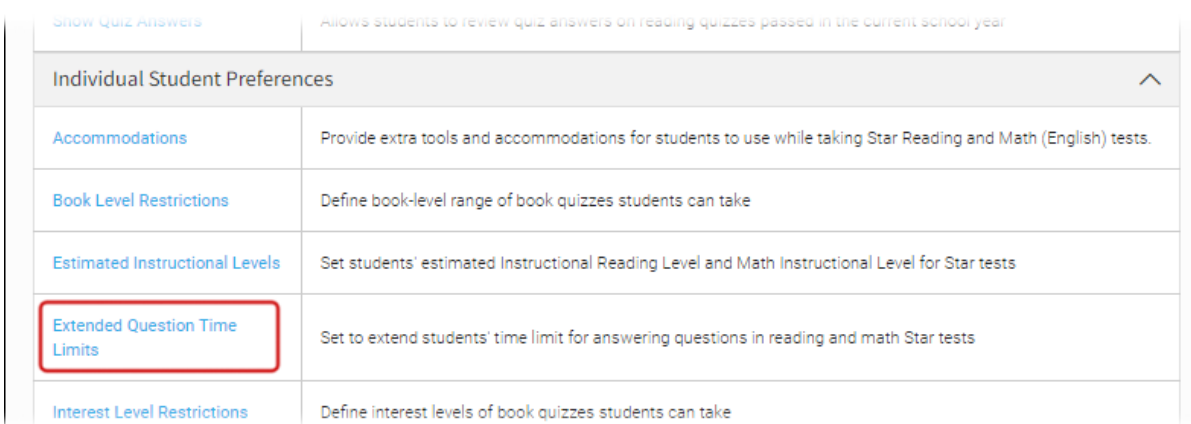

Method 2:

1. Log in to Renaissance.
2. On the Home page, select **Star Reading**, **Star Early Literacy**, **Star Math**, or **Star Spanish**. In the drop-down list, select **Preferences**.

3. On the Preferences page, select **Extended Question Time Limits** in the Individual Student Preferences section of the page.

Who can do this with default [user permissions](#)?

- District Level Administrators: any student in any school in the district
- School Level Administrators: any student in their own school
- Teachers: any student in one of their own classes

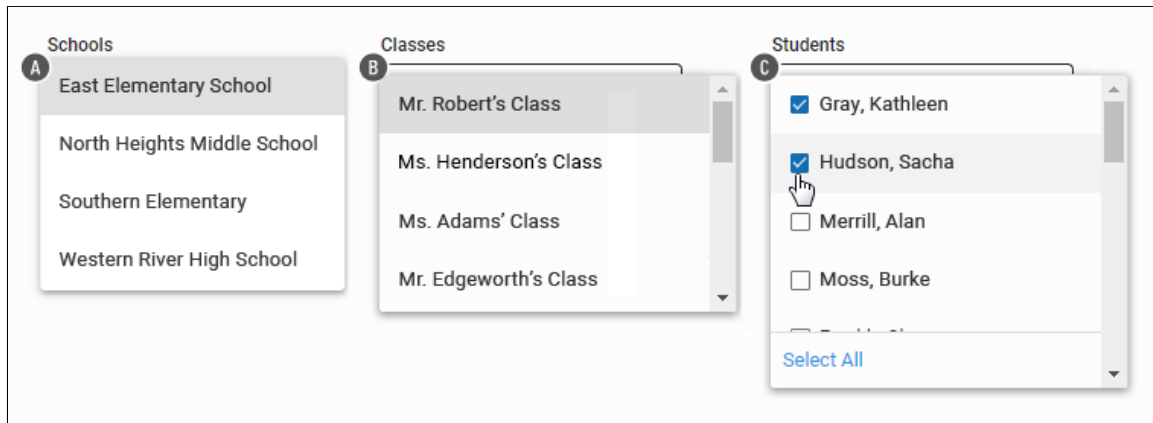

Use extended question time limits for students with special needs who need more time to read or answer the test questions. Star tests do not have overall time limits, but each test *question* has a standard time limit. The standard and extended times vary between products, question types, and the student's grade:

- [Star Early Literacy](#)
- [Star Early Literacy Spanish](#)
- [Star Math](#)
- [Star Math Spanish](#)
- [Star Reading](#)

- [Star Reading Spanish](#)

For Star Math (English) and Star Reading (English), the "Allotted Time" (Unlimited) setting for the [Accommodations Preference](#) will override the settings of this preference.

1. After you select **Extended Question Time Limits** on the Preferences page, use the **Schools** , **Classes** , and **Students** drop-down lists to choose which students to set the preference for.

- You can only select one school at a time; only the school(s) available to you will be shown in the list. (If you only have access to one school, you will not need to select it.)
 - You can only select one class at a time; only the classes available to you will be shown in the list. (If you only have access to one class, you will not need to select it.)
 - All of the students in the selected classes will be shown in the **Students** list. You can check them one at a time, or you can choose **Select All** at the bottom to check/uncheck all of the students at once. (If you only have access to one student, you will not need to select them.)
2. For each student, check (or uncheck) the **Extend question time limit...** box(es) after the student's name in the Setting column for each program you want that student to have extended time for.
