

**Oxnard School District
Classified Employees**

Seniority List 2021-2022

Seniority is used for various reasons. Namely, it is used for determining the order of layoffs for employees in certain classifications once the Board of Trustees takes action to reduce the number of days/hours worked or eliminate a position due to lack of funds or lack of work.

Seniority Definition: for purposes of the contract, seniority shall be synonymous with “Length of Service” defined as a unit member’s hire date into a permanent position with the affected classification including equal or higher classes. The presented seniority date represents an employee’s seniority in their current classification including equal or higher classes.

Please be mindful: employees who are affected by layoff are NOT to contact other individuals on this list to discuss bumping rights. If you are concerned about a rumor and/or have questions regarding your status, please contact the Classified HR Office or your CSEA representative immediately.
